

Drawing Creation Days 5–6

Instructions

The following is what you will draw on the board for the students to copy while you are teaching through the last two days of creation in Lesson 3.

Day 5 – Draw little m's around the cloud for the flying creatures. Draw a simple two-line fish under the waterline. Add a whale and plesiosaur under the water.

Day 6 – Draw a simple dinosaur and a dog on the right side of the land area. Draw a man (Adam) and a woman (Eve). Stick people are fine to draw. You may want to draw them behind a bush.
