GAME DIRECTIONS

- Make at least a 2' square with masking tape on the floor. Divide the inside of the square into sections. An X will make 4 sections. Assign each section a number value. (See sample at right.)
- Divide the class into two or more teams depending on size. Give each team a beanbag.
- Students will toss a beanbag then get a question to answer.
- If they answer correctly, they will be awarded the number of points according to where the beanbag landed.
- If the team misses the question another team may try. If no one gets the answer, give the answer and repeat the question later in the game.
- Repeat questions, or add others according to your class and your lesson.
