# King Solomon Review Questions Answer Key

Print and cut the questions into strips. Place them in a bag or container. Have the students sit in a circle. This game is like hot potato but no one will be out. Play the music and have the students pass the bag around the circle. Instead of music, you may want to count to different numbers, say the alphabet to a certain letter, recite the memory verse, etc. as students pass the bag around.

Pause the music at random intervals. When the music stops, whoever has the bag will take a question out and answer it. If the student can't read, have him or her bring it to you to read. Allow the student to answer.

Have the Lesson Theme Posters and the Solomon Becomes King Event Pictures to help with answers. Continue play until all of the questions are gone and everyone has had a chance to answer.
