

Divided Kingdom Trivia Toss

PREPARATION

- Print the questions on cardstock and cut apart.
- Put the cards facedown in a grid pattern on the floor (see below).
- Tape a tossing line on the floor to show students where to stand.

INSTRUCTIONS

Divide the class into teams of 2-4 students.

One student from each team will toss the beanbag on top of a trivia card. If the student hits a card, the teacher will turn the card over and read the question to the team who threw the beanbag. The team should answer the question. If the answer is correct, remove the card and award the points on the card. If incorrect, put the card back down. Continue alternating teams until all of the questions have been answered correctly. Allow students to use the Lesson Theme Poster and their class notes to find the answers.
